"An enriching collaborative think tank venue”
promoting growth and success within our local business community.

The CEO Roundtable Program is designed to provide CEOs and Presidents with the opportunity to connect with their professional colleagues of diverse ages and industry backgrounds to discuss challenges and successes involved with aspects of running a business. The CEO Roundtable Venice Program serves to support the Chamber mission by acting as an informal board of advisors to each other in addition to creating an opportunity for a venue for our local business leaders to provide a forum to receive ideas, advice, and business solutions.
